TORONTO NEWS.

Estimates of the Year's Apple Crop—
 Lineman Killed.

Toronto, Aug. 9.—At the Apple Shippers' convention here today, a report presented showing that the average condition of the crop in Canada and the United States was 46 per cent. Ontario average only 35 per cent; Nova Scotia, 75 per cent, California highest, ninety per cent.

Joseph Chambers, lineman, fell from a ladder twenty feet this morning, striking on his head. He died en route to the hospital. He leaves a wife and three small children.

Banishment Proclaimed

Boer Leaders Are Given Till September Fifteenth to Surrender.

Otherwise They Will be Permanently Banished From South Africa.

Cost of Maintenance of Their Families to be a Charge on Their Estates.

London, Aug. 9.—A parliamentary paper has been issued containing a proclamation issued by Lord Kitchener on August 7, in accordance with instructions from the Imperial government, the governments of Cape Colony and Natal concurring.

The preliminary correspondence shows that the proclamation is based upon suggestions which the government of Natal forwarded to Colonial Secretary Chamberlain on July 24, and that the date, September 15, was recommended by Lord Milner.

The reasons of the government for the proclamation of Lord Kitchener of August 7, as contained in parliamentary papers just issued, are set forth in a preamble to the proclamation as follows:

"THE PROCLAMATION.
 "Whereas the late Orange Free State and South African Republic have been annexed to His Majesty's dominions, and

"Whereas, His Majesty's forces are and have been for some considerable time in complete possession of the seat of government of both the aforesaid territories, with their public offices and the whole machinery of administration, as well as of all the principal towns and the whole of the railway, and

"Whereas, a great majority of the burghers of the two late republics to the number of 35,000, exclusive of those who have fallen in the war, are now either prisoners of war or have submitted to His Majesty's government and are living peacefully in towns and camps under control of His Majesty's forces; and

"Whereas, the burghers of the late republics still in arms are not only few in number but have lost almost all their guns and munitions of war, and are devoid of regular military organization, and are therefore unable to carry on regular warfare or to offer any organized resistance to His Majesty's forces in any part of the country, and

"Whereas, though unable to carry on regular warfare, continue to make isolated attacks upon small posts and detachments of His Majesty's forces, to plunder or destroy property and to damage railway and telegraph lines; and

"Whereas, the country is thus kept in a state of disturbance, checking the resumption of agricultural and industrial pursuits, and

"Whereas, His Majesty's government is determined to put an end to a state of things which is aimlessly prolonging bloodshed and destruction and inflicting ruin upon a great majority of the inhabitants who are anxious to live in peace and earn a livelihood for themselves and their families, and

"Whereas, it is just to proceed against those still resisting, and especially against those persons who, being in a position of authority are responsible for the continuance of the present state of lawlessness and are instigating their fellow-burghers to continue their hopeless resistance to His Majesty's government; therefore, Lord Kitchener issues this proclamation:

"All commandants, field cornets and leaders of armed bands, being burghers of the late republics and still engaged in resisting His Majesty's forces, whether in the Orange Colony or the Transvaal portion of His Majesty's South African dominions, and all members of the governments of the late Orange Free States and Transvaal, shall, unless they surrender before September 15, be permanently banished from South Africa."

The cost of the maintenance of the families of all burghers in the field, who have not surrendered by September 15, shall be recoverable from such burghers and shall be a charge upon their property, removable or immovable, in the two colonies."

PRICE COMMENT.

The afternoon papers comment approvingly upon the proclamation of Lord Kitchener. Even the Westminster Gazette says there is no fault to find with it, nor is there any objection to make about the severity of the law. It thinks, however, that it is extremely doubtful if it will have any effect in shortening the war. Most of the fighting Boers are already completely ruined and nothing distrains them, on account of the devastation of the country. It has long been obvious that such a step was imperative in order to avert ruin upon the inhabitants desirous of peace."

Manitoba News.
 Ottawa, Aug. 9.—The following cable has been received at the militia department:
 "Johannesburg, Aug. 7.—Regret to report that Mr. Nelson Hill, South African Constabulary, died of enteric fever at Krugersdorp on August 2. Next of kin is Thomas Hill, father, Virden, Manitoba."

JUMPED THE TRACK.
 Narrow Escape of Passengers in a Pullman Coach.

Batavia, N. Y., Aug. 9.—Two rear cars, an observation coach and a Pullman parlor car, on the Lehigh Valley's east-bound "Black Diamond" express, jumped the track and broke loose from the balance of the train at North Levitt, ten miles east of Batavia, shortly after noon today. The train was running over fifty miles an hour at the time. The parlor car remained on the ties, and no one in it was injured, but the observation car plunged down the embankment and dropped over on its side in the ditch. It was badly demolished, but only eight of its occupants were injured, and they not seriously.

The Census Figures

The Commissioner Says Report Published Is Incorrect—Bad Guesswork.

Prince Edward Island the Only Province From Which Returns Complete.

O'Brien Must Hang—Telegraph Line to Dawson Will Open About September 1.

Ottawa, Aug. 9.—(Special)—Commissioner Blue says the report published in the afternoon papers that the census of Canada totals 5,400,000 is incorrect, and merely pure guesswork. Prince Edward Island is the only province for which complete returns have been received.

The Minister of Justice has decided to refuse the application for a new trial for O'Brien, the Dawson murderer.

A hailstorm yesterday did considerable damage to the crops in the neighboring townships, the storm sweeping over a stretch of country ten miles long by half a mile wide. Several farmers came to town today with from ten to two dozen window frames to have glass replaced which had been broken by hailstones.

EXPECTS TO BE KNIGHTED.
 It is reported that J. R. Booth, of the Canada Atlantic railway, will be knighted on the occasion of the Duke's visit.

DAWSON TELEGRAPH.
 Mr. Gobeil, deputy minister of public works, says that the telegraph from Dawson will not be completed until the end of the present month.

The Harvest Of The Deep

Big Run of Salmon Continues—Tons of Fish Going to Waste.

Exciting Experience of a Longshoreman—Carnegie Library to be Built.

Vancouver, Aug. 9.—(Special)—Sockeyes are still running in the Fraser river; 500, 600 and 700 to the boat. Only 200 to the boat, however, are being taken, so that from a half to two-thirds of the enormous catch is being thrown away. Hundreds of thousands of fish are already rotting in the water or putrefying on the beach.

It is reported that one boat caught 800 fish in half an hour, and as the canneries would only take 200, 600 were thrown overboard. There are indications of the enormous run lasting. The Annacortes traps are again full to overflowing, and the United States waters are alive with fish.

Wm. Keen, a longshoreman, was held up by two men in a dark alley last night. One of them caught him by the throat and stopped his cries. He was held by the two men on the ground and his money, amounting to \$15, taken from him. The man who took the money ran away and Keen seized the other man and a fierce fight ensued. Keen all the time calling for the police. A most unfortunate mistake then happened. A crowd collected on the spot and one of the crowd, thinking it was a common street fight, called the men apart and the foot-pat of course made off.

Competitive plans are to be asked for almost at once for the Carnegie library, to be built on Westminster avenue. The building will be commenced, it is thought in three weeks.

THE REFORMATORY.
 Work has commenced on the Boys' reformatory, Greer's Beach. Mr. Eraser Gamble and Mayor Townley visited it today on a tour of inspection.

UNCONFIRMED REPORT.
 The Province publishes a report to-night that an additional steamship is to be added to the Oriental Express line, larger, and faster than the others, and that the tenders have already been called for it in the Old Country. The report could not be confirmed at Superintendent Marpole's office.

THE BRITANNIA MINE.
 Mr. McKicking, of the Britannia Copper Mines, Howe Sound, informed the Colonist correspondent this afternoon that the Britannia Copper Mine was to be operated and preliminary work would commence very soon. This was due to the fact that some of the Montana shareholders, through Mr. G. H. Robinson, consulting engineer, had purchased the controlling interest in the stock and were determined to develop the mine. From another source it was learned that \$1,500 each was paid for the shares to the extent of \$100,000. This is double the original price of the shares.

MONTREAL NEWS.
 Waiting to Confer with Shaughnessy—Big Firm to Wind Up.

Montreal, Aug. 9.—(Special)—Representatives of the Brotherhood of Trainmen and Engineers, who arrived from the west yesterday, have for some time been waiting to confer with President Shaughnessy, who is unable to meet them on Monday owing to it being the day for the regular board meeting. But it is not improbable that some sort of conference will be held on Tuesday. In the meantime Mr. Pope has gone as far as Carleton Place to personally interview the trackmen as to their views and conditions.

A winding-up order in the affairs of the Whitman Shoe Company has been granted on the petition of Dowker, McIntosh & Co.

Marie Legare died at Notre Dame hospital today from injuries received in a street car accident two weeks ago. Count P. Mazza, the new Italian consul-general, arrived this morning. His first inquiry from the acting consul-general was as to the truth of a report circulated in Italy that Italians in Canada were starving to death. He was assured that it was untrue.

Work On The Bridge

Mr. Wadell Arranging Preliminaries For the Fraser River Bridge.

How It Is Proposed That This Splendid Structure Will Be Built.

More Sensational Evidence In the New Westminster Jail Enquiry.

New Westminster, Aug. 9.—(Special)—The Colonist correspondent interviewed Mr. Maher, resident engineer for the projected Westminster bridge, today, regarding his future plans and present operations. Mr. Maher said that Mr. Wadell, the chief engineer, and himself had been doing cross-section work for some days, securing the elevation of the bluff where the bridge will terminate on the Westminster side, and other work towards getting the plans in shape to enable the government to call for tenders. The site has been chosen. The new bridge, which will be a steel arch truss structure, will span the river between Brownsville and a spot near the milk factory on the Fraser, on the top of Columbia street rise known as the Crescent. The railway part will of course reach Columbia street and must be 20 feet above the C. P. R. track. The approaches to the bridge will be on Front street. The approaches will be tee-shaped and it will be possible to enter and leave the bridge from either side, the grade of the approach being one per cent.

Operations will be commenced next week sounding the bottom of the river. They are using the case of a bottom which the bridge made several years ago, but how closely they will follow these plans is not known. The expense, and to some extent, the style of the bridge, can only be determined by the depth to which they will have to sink the piers. At 75 to 90 feet it is probable that hard rock will be met with. To make the concrete secure they will have to go into that rock 8 or 10 feet. This preliminary work will last a month, and it is expected that six weeks after the contractor will be on the ground. It is an immense undertaking, and will rank well with the bridges of the world.

The entire span will be about twenty-two hundred feet. The depth of the river and the nature of the bottom will again determine the number of spans, but there is pretty sure to be two spans, that will be 400 feet long. The substructure and the superstructure will be built by different contractors. The substructure will necessitate the use of a plant costing \$5,000. The piers are to be built on the most approved method. While the men are excavating in a compressed air chamber below the water on the base of the pier, the pier above water will be in process of construction on top of the air chamber. In this air chamber two shafts will be used, one for the men and one for the waste matter, which the air drives up with a rush. When the excavations are complete the air chamber itself is made solid by filling it in with concrete, and thus the pier is solid throughout.

THE JAIL INVESTIGATION.
 The jail inquiry continues to be very sensational. The head trusty, Webber, swore to his passing into the women's cells with a key he made himself. He spoke of Guard Marshall using his key to go into a woman's cell. Witness wrote to Ida, but she did not reply in writing, but told him she would do what he wanted. Guard Marshall deceived witness into a woman's cell and saw him coming out; this was to have a hold on him. Guard Marshall used to go and look at Rosy every morning. Witness then explained how Marshall smuggled whiskey to Rosy and the prisoner Mr. Garth.

Flouring, the jail cook, acknowledged that the letters produced, written to Rosy, were from him. They were full of terms of endearment. He explained to the girl that he loved her respectfully, different from the others. Witness said that he referred particularly to Collins, who was always talking to Rosy. Several other witnesses being sworn gave evidence of a similar character.

DEATH OF A PIONEER

Adam Grant Horne, One of Nanaimo's Oldest Citizens Passes Away.

Nanaimo, B. C., Aug. 9.—(Special)—Adam Grant Horne, father of Postmaster Horne of this city, who arrived in Victoria on the steamer Tory in May, 1851, died today aged 70. He was an employee of the I. B. Co., and came from Orkney. He was storekeeper for the company at Fort Rupert, Fort Simpson, Comox and Nanaimo, and was the first man to cross Vancouver island from east to west. A story of his early adventures was published in the Colonist a few weeks ago.

Robert Jamieson, whose skull was crushed by a piece of coal yesterday, died this morning.

MANITOBA LIQUOR ACT.
 Aulay Morrison Thinks Privy Council May Uphold the Law.

Toronto, Aug. 9.—(Special)—Aulay Morrison, K.C., M.P., New Westminster, is in the city on his way from Great Britain, where he was on legal business before the judicial committee of the Privy Council. Mr. Morrison was present during the argument on the Manitoba prohibition law, and an opinion was expressed by a leading English counsel, who was also present, but not engaged in the case, that from the casual remarks of their Lordships, they would decide the act to be intré vici.

BURNED TO DEATH.
 Windsor, Aug. 9.—(Special)—The wife of Mr. Cameron, a retired Presbyterian minister, set fire to her clothes while preparing dinner yesterday, and was burned terribly before the flames were extinguished. Her recovery is doubtful.

FOOT POWDER

Just the thing for those scalding, swollen, perspiring feet. A little dusted into the shoes will keep the feet in excellent condition. 25c. A BOX.

Steel Barons Aggressive

Begin Their Campaign by Ordering the Removal of a Big Wood Plant.

American Federation of Labor Pledge Support to the Strikers.

Pittsburg, Aug. 8.—There were gravely important developments in the strike situation today. The United States Steel Corporation moved decisively in its strike campaign with a peremptory order directing that the great Doves wood plant at McKeesport be dismantled and removed to the Kiskiminetus Valley. President Gompers, of the American Federation of Labor, after a two-days conference with President Shaffer and his associates, issued a formal statement tonight specifically pledging the Federation to the moral and financial support of the Amalgamated Association. His written review of the train of events, leading up to the industrial quarrel sustains the course of the Amalgamated Association, declares that nothing remains for labor but to battle for the cause of unionism. The official announcement of the order to dismantle the Doves wood plant came this afternoon toward the close of an otherwise uneventful day.

COLOMBIA AND VENEZUELA.

United States Interest Excited—War Vessel Ready to Sail.

Washington, Aug. 9.—The situation in Colombia and Venezuela continues to occupy much of the attention of officials here today, and while it was not felt that affairs had reached a serious aspect, yet it was appreciated that both official and unofficial advisers indicated a condition of affairs which might mean war between Colombia and Venezuela, complicated by revolutionary outbreaks in both countries.

San Diego, Cal., Aug. 9.—The U.S.S. Ranger, now at this port, will probably leave for Panama in a day or two, and will be in the United States interests during the present revolt in Colombia. Capt. Field, commanding, has an order to be ready to go to sea at once. The vessel can leave within twenty-four hours, if ordered. She is taking three months' provisions.

TWAS A BAD NIGHT.

Attempt to Flash Signals from Buffalo to Toronto Unsuccessful.

Toronto, Aug. 9.—The experiment of flashing an electric light from Buffalo to Toronto was made tonight and was not successful. The light shone, reflected in the sky above the city hall tower, and at first the observers at this end felt certain it was the circle from the Pan-American, but when word came over the long-distance telephone, that the light was off, while the light was on, the light remained, it was a somewhat strong indication that it came from the city below. The night was entirely unfavorable, the clouds passing and changing above, while there was every possibility of showers or mist on the lake between here and Buffalo. An effort will be made again next week.

THE EMPRESS'S FUNERAL.

Their Majesties Will Sail This Morning for Holland.

London, Aug. 9.—Kind Edward, Queen Alexandra, Princess Victoria, Prince Nicholas and a distinguished official party, left London tonight for Port Victoria. All will sleep on board the royal yacht that awaits the King, and will sail for Flushing tomorrow morning. Their Majesties will be welcomed on their arrival at Flushing by Vice-Admiral Kennedy and other high naval personages. There will be no salutes, however, or other demonstrations. The royal party will proceed to Cronberg and thence to Potsdam for the funeral on Tuesday.

WICKED NEW YORK.

Vandal Police Officials in League With Gamblers.

New York, Aug. 9.—Disclosures, involving attempts to buy an officer of the Society for the Prevention of Crime, and implicating men on duty at police headquarters, and several agents in the "tripping off" of gambling houses, previous to contemplated raids, followed the arrest today of Edgar A. Whitney and E. Berzendorf, alleged to be members of a secret bureau in the city, on a charge of conspiracy and of aiding and abetting gamblers. The men were arraigned before Justice Jerome and each one held in \$3,000 bail.

TIRELESS CARRIE.

Mrs. Nation's Husband Applies for a Divorce.

Medicine Lodge, Kas., Aug. 9.—David Nation today brought suit for a divorce from his wife, Carrie Nation, the temperance crusader, and several witnesses alleged that his wife held him up to public ridicule, neglected her family duties and abandoned his home.

Kingston, Aug. 9.—(Special)—Mrs. Carrie Nation passed through the city today on the way to Thousand Islands. She had dinner in the city.

A COSTLY ARCH.

Design for Manufacturers' Association Arch Accepted.

Toronto, Aug. 9.—(Special)—C. J. Gibson has been awarded first prize for a design for the arch to be erected by the Manufacturers' Association in honor of the Duke of York's visit. In all 23 designs were submitted. The arch will cost \$10,000.

For a splendid outing take steamer "City of Nanaimo," at 9 a. m. Sunday.

Kitchener

Not Wounded

Rumor to That Effect Discredited by the War Office. There.

Boers Murder Two Members of Stienacker's Horse in Revenge.

London, Aug. 9.—The War Office has received no advices giving color to the rumor circulated by a news agency in the United States that Lord Kitchener has been wounded in a skirmish with the Boers. The rumor is officially discredited. Lord Kitchener's customary despatches reached the War Office this afternoon, and contained no reference to any accident to him.

London, Aug. 9.—According to a despatch to the Daily Mail from Lorenzo Marques, the Boers are reported to have captured and shot in cold blood a lieutenant and trooper of Stienacker's Horse, in revenge for their being instrumental in shooting a Boer despatch rider.

LOUIS RIEL'S SON.

Montreal, Aug. 9.—(Special)—A number of citizens, interested in the family of the late Louis Riel, have received word from his eldest son of his intention of coming to Montreal to complete his education at St. Mary's college.

CHARGED WITH DISCRIMINATION.

Montreal, Aug. 9.—(Special)—Proceedings have been taken against the C. P. R. Grand Trunk, Canada Atlantic, and other railways, before the interstate commerce commission, because their rates on Canadian hay and straw going into the United States are too low.

A FATAL FALL.

Lindsay, Aug. 9.—(Special)—E. Doherty, employed in the Parkin shingle mills, was the victim of a fatal accident at Midland, Ont. yesterday. Lindsay's civic holiday, and in the afternoon the young man visited Playfair's lumber mills. He was walking down a trestle-way and by some unknown means lost his balance, falling some distance to the ground and striking on his head. He was picked up unconscious and medical aid summoned, but despite all efforts, he passed away at an early hour this morning. He was about 38 years of age, and leaves a wife and small family.

Executed At Tacoma

Edwin L. Boyce Explodes His Awful Crime on the Gallows.

Murdered His Wife on February 10, 1900—Met His Fate Bravely.

Tacoma, Aug. 9.—(Special)—Edwin L. Boyce was hanged here this morning for the cowardly murder of his wife on February 10, 1900. The execution was carried out in every detail without a hitch.

Save for a slight weakness, displayed in his cell before he was led to the scaffold, and while the black cap was being placed on his head, Boyce met his fate like a soldier he always claimed to be.

He was 37 years old, fairly well educated, and had served as bugler with the United States army in the Philippines.

It was claimed he was made insane from the excessive use of drugs, and every effort was made by his counsel to save him from the gallows.

INDUSTRIAL DELEGATES.

Arrive from England to Study Methods on This Continent.

Montreal, Aug. 9.—(Special)—British manufacturers seem to be waking up to the necessity of meeting United States competition and a delegation will arrive here tomorrow on the Lake Champlain to study Western methods. The delegation is composed of Mr. S. H. Whitehouse, delegate from the Somerset Miners' Association; Stuart Utley, delegate from the Sheffield Plate Cutters' Association; and E. A. Washer, delegate from the Bristol Brick Layers' Association. These gentlemen will, during their visit, make a thorough inspection of the manufacturing establishments doing business in lines in which they are interested.

REMOVING TO CANADA.

The Ontario crown lands department has just been informed that the Saginaw Lumber Company has decided to move its big mill from Saginaw City, Mich., to some point in Ontario, not yet selected, to cut the timber which the company has in its limits on the north shore of Lake Huron. The Cleveland Lumber Company, which owns limits in the township of Foster, north of Georgian Bay, is building a mill at Sarnia, to be ready in about a month. Both mills will employ about one hundred hands. These mills have moved to the Canadian side in consequence of the legislation of 1897, prohibiting the export of saw logs, a policy which had been previously strongly advocated by the Conservative opposition in the legislature.

Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling. It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Hood's Sarsaparilla
The best of all medicines for all humors.

The Colonist.

SATURDAY, AUGUST 10, 1901.

Published by
The Colonist Printing & Publishing
Company, Limited Liability
No. 27 Broad Street, Victoria, B. C.
PERCIVAL R. BROWN, Manager.

THE DAILY COLONIST.

Delivered by carrier at 20c. per week, or
mailed postpaid to any part of Canada
(except the city) and United States at the
following rates:
One Year\$9 00
Six Months 3 00

THE SEMI-WEEKLY COLONIST

One Year\$1 50
Six Months 40
Three Months 20
Sent postpaid to any part of Canada and
the United States.

TERMS STRICTLY IN ADVANCE.

NOTICE TO ADVERTISERS.

All new advertisements and changes of
advertising, to ensure their being inserted,
should be handed in to the business office
not later than 6 p. m. Advertising will be
accepted up to 8 p. m. at the business office,
but insertion cannot be guaranteed. For
urgent advertising after 8 p. m., consult the
Night Editor.

\$10 REWARD

Will be paid for such information
as will lead to the conviction of
anyone stealing the Colonist from
the doors of subscribers.

THE ROYALTY REFUND.

In every notice of the refund of a portion
of the royalty on gold assayed in
Victoria and Vancouver, the statement
made has been that "one per cent. of the
royalty" is refunded to the owner of the
gold. What should be stated is that
there is a refund of one per cent. on the
total value of the gold. If a miner has
a thousand dollars' worth of gold, he
receives as a refund \$10.00 and pro-
portionately for larger or smaller
amounts.

THAT MEMORIAL.

Commenting upon the interview with
the Minister of Finance published in
the Colonist, the Nelson Tribune says
that the Memorial of the Mining Associa-
tion in this province. We never felt any
concern in regard to the notice which it
would attract here. Our fears all have
been on account of the mischief that
may be done abroad, where interested
parties will take care to see that the
statements of the Memorial are made
public, and will not see that the replies
made to them are made known. Take
for example the following from the Butte
Inter-Mountain:

In no other section of the world is
mining carried on under so many artificial
burdens as are laid upon the industry
in British Columbia. The mines of this
region were discovered by prospectors
from the United States and developed
largely by American companies, many
of which have been compelled to sus-
pend operations. The only hope for re-
dress of the wrongs suffered seems to lie
with the Dominion government, to which
the British Columbia Mining Association
has made a formal appeal, setting forth
the injuries inflicted upon the industry
by hostile provincial legislation. In view
of the grievances recited, investors on
this side of the line find nothing in
British Columbia stocks at present to
excite speculative interest. With a popu-
lation of approximately 50,000
miners, a tax of \$5,144,500 is collected.
The mines, at last reports, having an
annual production of \$11,348,481, paid
nearly half the entire tax of the pro-
vince, or a sum equal to 22.7 per cent.
of their product. This is an injustice so
manifest as to be without a defender
outside of the little clique at Victoria.

This is probably only one of many
misrepresentations of this province,
which will be sent broadcast over the
world because of the ill-advised publica-
tion of that Memorial, and it is not at
all likely that any one of the papers,
which give such things currency, will
feel under the least obligation to point
out how very completely Mr. Turner
answered the complaints on the score of
excessive taxation. Even the news-
papers of this province, which condemn the
Memorial, have not seen fit to repro-
duce what the Finance Minister said or
the Minister of Mines. They content
themselves with saying that he answered
the case made out for the Mining Associa-
tion. But the Association made state-
ments that were alleged to be facts.
They cannot be met by general words of
denial. They must be answered by
specific statements of fact. We think
it to be regretted that the newspapers
did not see their way clear to reproduce
in extenso what the Finance Minister
said. When the Memorial first appeared
the Colonist printed it, and then set
about meeting it point by point, not by
editorial opinions, but by the presenta-
tion of the actual facts of the case, and
we repeat that it is regrettable that the
newspapers of the province did not see
their duty to be to give the utmost
publicity to the unanswerable array of
facts presented by the Ministers.

We suggest to the Department of
Mines that a circular letter should be
prepared dealing with the subject of the
Memorial and giving the answer to it,
which should be sent to the leading
financial papers of America and Europe,
not simply as a circular, but with a view
to having it published in their columns.

Fellow-Harvey, Bryant & Gilman
ASSAYERS,
Mining Engineers and Metallurgists
Ores Analyzed. Control Assays.
Properties examined, sampled and
reported upon.
Opposite Grand Hotel.

If its publication has to be paid for,
let it be paid for. It is highly important
that such a one-sided presentation as
that of the Mining Association should
not be allowed to go forth broadcast
through all the financial centres of the
world without some reply being given
equal publicity. We know that in Brit-
ish Columbia there is a sort of "laissez
faire" idea, which teaches that things are
magnified by being replied to. This may
be true enough so far as mere personali-
ties are concerned, but it is not true in
regard to attacks upon the best interests
of the province made in such a manner
as that adopted by the Mining Associa-
tion. There must be met fairly and
squarely. If there is nothing in the min-
ing laws of British Columbia and nothing
in the incidence of taxation to which we
need fear to attract attention, and we
believe there is nothing, then let the
attacks upon them be met face to face
and in any and every field where they
are given publicity.

THE ROYAL VISIT.

Through the courtesy of Lieut-Governor
Sir Henri Joly de Lotbiniere we are
able to lay before the public this
morning the programme of the visit of
the Duke and Duchess of Cornwall and
York to Victoria. While the stay of
the royal party in this city has been
greatly curtailed, a fact which will
cause much disappointment, it is impos-
sible not to feel pleasure at the effort
made to embrace as many features of
the suggested programme as possible.
There will have to be some little altera-
tion in details, but with the exception
of the review and naval display, the
whole ground will be covered, although
to do so will keep Their Royal High-
nesses very busy during their brief stay.

THE WAR ENDED.

The proclamation of His Majesty to
the burghers yet in arms in South Africa
is the last act of the war. There may
be more fighting, but it is idle to call
what is now going on war. The terms
of the proclamation are very reasonable.
There is no intention on the part of
our government to cease to care for the
wives and children of the burghers, who
continue to carry on marauding as heret-
ofore, but any cost that may be incurred
in this way will be made good, if pos-
sible, out of such property as the burgh-
ers may possess. If the proclamation
had declared all the property of the
burghers forfeited, no one could say that
it would be unjust. Instead of doing
that it gives them more than a month
to make up their minds to lay down
their arms and save what may be left
of their possessions, and, in some cases,
retain the right to live in the country.
Surely we shall hear no more of British
inhumanity towards a defeated foe. We
have much confidence that the proclama-
tion will have the immediate effect of
inducing many of the burghers to lay
down their arms. The facts set out in
the preamble are very interesting. Notice
is given that both the former repub-
lics have been annexed to the dominions
of His Britannic Majesty. We do
not recall that there has been any pre-
vious declaration to this effect in regard
to the Transvaal. It is stated that of
the burghers, a majority, amounting to
35,000, have either been taken prisoners
or surrendered or have submitted to our
forces and are now living quietly in
the cities. The terms of banishment, it
will be observed, only apply to those
burghers who are officers in charge of
men engaged in fighting and the mem-
bers of the late governments of the repub-
lics. The rank and file are at liberty
to remain in the country. If the decree
of banishment had extended to these
also, we do not think there could have
been any reasonable complaint.

THE JAPANESE.

The Toronto Globe is authority for the
statement that the Dominion government,
acting on the suggestion of the
Imperial government, has decided to dis-
allow all the acts of the local legisla-
ture, including the Immigration act of
1900, which in any way prejudice the
standing of Japanese in this province.
British Columbia is not the only coun-
try where there is a Japanese question.
It has arisen in the United States also.
Referring to it, the Chicago Post says:
"But Japan has been accorded full
equality as a member of the family of
nations. Her work in China has merited
and received universal praise. She has
acted like a truly civilized power, and
discrimination against her would be un-
justifiable and preposterous. Congress
will not entertain any proposal for a
Japanese exclusion act. The agitation is
a flash in the pan."

We may not like it, but it is beginning
to look as if we will have to treat Jap-
anese precisely as we treat other people,
so far as the enactment of laws are con-
cerned. So great are the Oriental in-
terests of Europe and America becoming,
that it will be the very poorest states-
manship to attempt to set up lines of
demarcation by means of statutes be-
tween our own people and the subjects
of the Mikado. As yet we may freely
legislate against the Chinese, but there
is a wide difference between the two
peoples. If there is such a thing as
patriotism in China, we have no evi-
dence of it. There is certainly nothing
like national pride or dignity. On the
contrary these qualities are abnormally
developed in Japan, and they must be
taken into account in dealing with inter-
national relations. There is something
of the same kind manifest in the United
States. The people of that country are
exceedingly touchy. They take offence
where offence is not intended, and the
reason is that their nationality is yet
young. They have not grown wise in
these things through long generations of
experience. But if American nationality
is young, that of Japan as a civilized
power is only in its infancy, and we
must have respect for its newness. We
mention these matters because there will
undoubtedly be an attempt at the next
session of the British Columbia legisla-
ture to enact anti-Japanese legislation,
and it is just as well that the members
of that body should understand how uter-
ly fruitless anything of the kind will
be. There is only one way to deal with
Japanese immigration, and that is by
treaty with the Mikado.

There are 60,000 negro voters in the
state of Maryland, and the Democratic
party has declared its intention, if suc-

cessful at the ensuing election, of dis-
franchising them all. This will be a
pretty state of things in a country which
rebelled against the British crown on
the plea of taxation without representa-
tion.

Commercial Intelligence wants some
one to draw the attention of the British
government to the fact that there is no
need of going to Puget Sound to get
what is erroneously called Oregon pine,
but that this valuable timber may be
obtained in any size and unlimited quan-
tity in this province. This suggestion
of the London paper is worthy of being
acted on, and we suggest that the person
to act is the Chief Commissioner of
Lands and Works, and that the best
means of communication would be
through the Governor-General. We are
sure that Sir Henri Joly would be glad
to forward such a notification to His
Excellency.

We owe an apology to Mr. William
Beaumont of Dunsmuir for the publica-
tion in the Colonist yesterday of a letter
signed "Justice." It was printed unin-
tentionally and through error. We do
not know anything whatever about the
case or if it is the letter misrepresents
the facts in any way. Our reason for mak-
ing this apology unasked is because it
is no part of the business of the Colonist
or any other paper to permit its columns
to be used by correspondents to comment
upon the private concerns of other peo-
ple. If Mr. Beaumont wishes to say
anything in reply to the statements made
in the letter, we shall be glad to give
him the necessary space to do so.

The Nelson Tribune reproduces a
portion of a recent Colonist editorial
and says that it means that this paper
is in accord with itself in its views as to
the propriety of the immediate dismissal
by Mr. Dunsmuir of some of his col-
leagues. Our contemporary is quite in
error, as it is also in error when it
says that the Colonist is Mr. Dunsmuir's
personal organ. Mr. Dunsmuir has no
personal organ and does not need one.
He does what he thinks is right in pub-
lic affairs, and has never yet asked the
Colonist either to defend what he has
done or to prepare the public mind for
anything he intended to do. The Colonist
treats all subjects as they arise
from day to day according to its best
judgment.

Mr. Robert Berber, representing the
Russia-China Bank and the trans-Siberian
railway, has been in St. Paul to
interview Mr. James J. Hill of the Great
Northern Railway Company. Great
significance is attached to this visit in
St. Paul, and it is thought to indicate a
consolidation of such interests as Russia
can control with those controlled in Mr.
Hill's hands for the purpose of control-
ling as far as possible trade that will be
developed between America and Asia.
A traffic agreement between the Great
Northern and the Russian railway system
in Asia is said to be one of the things
discussed. Possibly there may be a
disposition in St. Paul to magnify the
significance of the visit, which is said
there to mean the dominance of the
United States in the trade of Siberia
and China, but it is an event worth pass-
ing notice.

MONEY IN MATCHES.

To the Editor.
Sir, It may interest your readers to
know that Bryant & May, the largest
match manufacturers in England, have
just bought up a branch of the American
Diamond Match Co., which they have estab-
lished in England, for the large sum of
£2,000,000 (two millions four hundred thou-
sand dollars). This was done to get the use
of the American patents and to prevent
competition. At the same time, the
chairman of the American company said
to the English company, you have had
your share of the match business in Amer-
ica has paid on an average twenty-eight
and a half per cent for twenty years.
A few English names of the present owned
a meeting of the Incorporated Gas Light
Co., when it was stated that this company
had been sold to the American company for
£1,000,000. The defendant, a stormy one,
the match was sold out, and the balance sheet
showed no more of the immense profits it
had made.

We in Victoria have some like other large
towns, to see this cheap and effective light
displacing the expensive and inefficient
gas lights in our central streets. As sug-
gested in your paper, our attention ought
to be directed to see other towns lighted by incandescent
gas. We don't know everything here.

OLD COUNTRY.

NORTH LONDON.

Thomas Marriott, of The Lodge, Upper
Horseley, was summoned for unlaw-
fully keeping crowing cocks, and thereby
causing a nuisance to the residents in
the neighborhood. There were three
complainants who had made the required
declaration under the bye-laws of the
London County Council, which sets forth
that there shall be no cock-fighting after
three residents of the neighborhood have
lodged a protest with the owner of the
offending birds. The usual 14 days had
intervened between the serving of the
notice and the taking out of this sum-
mons. Mr. Phillips, a school master, gave
evidence of the inconvenience caused by
the defendant's birds. They continued
their noise all night, and every night in
the week. Mr. Marriott told the resi-
dents that these gentlemen were quite
within their rights; but he would give
him a piece of advice if he wanted to
keep cocks without being a nuisance to
the neighbors. A cock would not crow
if he had not room to stretch himself out.
Therefore, if the night perch was properly
placed it might prevent any further
annoyance. The defendant said he did
not admit that his birds made all the
noise. There were nine other cocks in the
yard. He had, however, not rid of the bantam
cock, which was the chief offender and
he would take his worship's advice as to
the prevention of the night crowing. Mr.
Fordham: You will have to pay 10s.
and 8s. costs. The defendant: What
do I do with the fowls? Mr. Fordham:
If they offend again you are liable to be
summoned again.

If you had taken two of Garter's Little
Liver Pills before retiring you would not
have had that crated tongue or bad taste
in the mouth this morning. Keep a vial
with you for occasional use.

Salmon are running at the rate of five
hundred to the boat. See the largest
cannery on the Coast at Anacortes.

HOW THEY DO IT IN ENGLAND.

From Montreal Gazette.

A man named Levi Barker, convicted of
being a vagrant at Malden, England, has
been sent to prison for three months in
England there is apparently no "machine"
agent to see that the incriminating docu-
ments are burned when charges are laid
in the courts against electoral wrongdoers.

Hamilton wants a visit from the Duke
of Cornwall, but it does not want to enter-
tain him, but wants him to entertain them,
and pretty much at his own expense. -London
News.

THE CURE OF DEAFNESS.

(From the "Journal for the Deaf.")

"In addition to the inconvenience in-
herent to the individual deaf, Deafness
has a marked influence on the mental
development of the individual when the
latter has been attacked by it in youth.
Men who in early youth have suffered
from impaired hearing have in many
cases as a result, something of an un-
stable, confused, or undecided and fal-
tering in action, illogical and changeable
in thought and speech, their answers of-
ten not being to the point. An experi-
enced observer can thus, in many cases,
after a short conversation, even from the
speech and manner of a man, discover
that most probably he had in youth de-
veloped hearing."

For a long time Deafness and chronic
affections of the ear have been consid-
ered almost incurable. Most of these affec-
tions attack, as is well known, the in-
ternal parts of the organ, the Middle Ear
or the labyrinth, and these parts are in-
accessible. In one direction the tympanum
forms a partition which closes the
auditory tube; in the other direction, if
the Middle Ear communicates with the
nasopharyngeal region by the Eustachian
tubes, the passages are beyond reach.
Under these circumstances the nasal op-
erations still in vogue, involving the use
of somewhat complicated instruments,
such as probes and catheters, and the like
have but small chance of success.
Through the nose one can operate only
very imperfectly on the Middle Ear, and
as to the Inner Ear or Labyrinth, it is
absolutely out of reach.

But recently a very simple means has
been found of bringing to bear on even
the most inaccessible parts of the ear the
remedial capable of overcoming their in-
flamed or inert condition, and of restor-
ing them to their normal functions. For
this purpose we utilize the well-known
absorbent properties of the skin. A plas-
ter of zinc, which is of constant use, is
covered with a medicated compound, is slightly
heated and applied to the prominent part
which is to be found behind the ear (the
mastoid process). The chemical elements
found in the compound are absorbed and
progressively absorbed by the skin, and
the work of regenerating the organ com-
mences."

This is the basis of the Dronet treat-
ment, which has lately been so much
talked about. On reading of the remark-
able results which have been obtained
by this new process, it really seems as
if this time the secret of a cure for that
terrible complaint, deafness, has been
discovered. Experiments, carried on
now for several years, have shown that
within the space of a few days, or not
the age of the pet at his very serious
influence on the success of the treat-
ment. Several cases are quoted of com-
plete cures in patients of sixty to eighty
years of age, who no longer recollected
the beginning of their infirmity. In the
same way, cases of obstinate discharge
have been cured in a few weeks. Many
persons declared incurable by aurists
have finally regained their hearing
through Dronet's external applications.

From this point of view, "The Journal
for the Deaf" is extremely interesting; in
it are given particulars of some two
hundred recent cures. Those who are in-
terested in the subject will be glad to
learn that "The Journal for the Deaf,"
an analytical review of the diseases of
the Ear, Throat and Nose, published
monthly at the Dronet Institutes of
Paris, London, and Brussels, is sent free
to any persons applying for it. To get
the English edition they need only write
to the Secretary of the London Institute,
72 Regent's Park road, London, Eng-
land. We may add that it is not at all
necessary for them to come to Europe
to try the application of the new treat-
ment. The Dronet Institutes treat their
numerous patients abroad by means of a
pathological report form which enables
the patient to give a faithful descrip-
tion of his case, and by which the In-
stitute is able to prescribe for him. Let
any of our readers, then, desiring to un-
derstand this cure, write direct to the
English Dronet Institute, of which we
speak, give the address, 72 Regent's Park
road, London, England, and they will
receive gratis from the Secretary all the
needed information and instruction. And
how it only remains for us to wish them
a speedy cure.

SHARES FOR SALE

Similkameen Coal Co.

THE NOBLE FIVE.

Report of the Manager on the Work Done on the Property.

Mr. Geo. B. McDonald, manager of the Noble Five mine, reports as follows: "During the month of July the following work has been done: In tunnel A the crosscut we are running to crosscut the Last Chance ledge has been run a distance of 1135 feet, making a total of 200 feet. In Last Chance tunnel No. 3 we have drifted on the ledge 35 feet, making a total from the Last Chance end line of 151 feet. In this distance we have encountered three chutes of ore, A, B and C. We have not as yet reached the bottom of the drift. The maximum width of the ore was 16 inches, 12 inches and 3 feet, respectively. Assays of ore taken from chute C gave from 174 ounces to 426 ounces of silver per ton, and from 11 to 17 per cent lead.

"We shipped during the month to the Nelson smelter 24 tons of clean ore, the net returns for which, after paying freight and treatment charges, were \$1,925.33, a little better than \$80 per ton."

The full report can be seen at the office, 35 Fort street.

IN CHAMBERS.

Applications Dealt With Yesterday by Mr. Justice Martin.

In Supreme Court chambers yesterday Mr. Justice Martin dealt with the following applications:

Summer & Co. v. Leberly—Application for judgment under order 14. Costs in the cause.

Stiles v. Harris—For examination of judgment debtor. Order made.

Louis Vigildes Estate—Application for letters of administration. Stood over.

Re George Nicholson, deceased—Application for approval of offer for part of property. Order made approving sale.

Re George Wood, deceased—Application for letters of administration. Order made.

EXCURSION TO ANACORTES.

Splendid Chance to See One of the Big Canneries in Operation.

Next Sunday's excursion on the steamer City of Nanaimo to Anacortes, through Rosario and Haro straits, promises to be the most enjoyable day's outing of the summer. The excursion will be made on the steamer City of Nanaimo, which will leave the wharf at 9 a. m., and will make a quick passage to Anacortes, passing on route the various fish traps. A short time will be spent viewing the points of local interest in and around Anacortes, and then an extensive inspection of the Alaska Packing Company's cannery will be made. This cannery is one of the largest on the Pacific Coast, having a capacity of eight thousand cases per day, and at the present time, owing to the phenomenal run of salmon, is being taxed to the limit, working day and night as well as Sundays.

The United States battleship Iowa, which is at present in Anacortes, is expected to remain there over Sunday, in which case an opportunity will be afforded the excursionists to inspect her. The Iowa is the flagship of the Pacific Squadron, and is a perfect specimen of the modern fighting machine. During the late Spanish-American war the Iowa took part in several engagements at Manila, and has numerous stories of the fight. She carries one of the best bands in the United States navy.

Leaving Anacortes, the alternate route will be taken, affording a picturesque sail through the numerous islands dotted along Thatcher Pass and the Middle channel. The Fifth Regiment band will accompany the excursion. Bandmaster Finn having arranged a suitable programme of music to be rendered during the trip. Seats can be had at Frank Campbell's, the Army and Navy cigar store, and at the E. & N. railway station.

Health-Giving Malt Found Only In Malt Breakfast Food.

If people would use the health and strength-giving properties of pure Malt to advantage, they should use Malt Breakfast Food every morning. Malt Breakfast Food supplies, when eaten with cream or milk, the exact elements and in the correct proportions of a scientifically perfect food. Oatmeal and other grain foods contain too much insoluble starch and other agents that tax digestion and injure the stomach. Try Malt Breakfast Food; your grocer will recommend it.

A delightful picturesque sail, beautiful weather, excellent music. Take steamer "City of Nanaimo," 9 a. m., Sunday.

Changes Are Suggested

Governor-General Submits a Remodelled Programme for Royal Visit.

It is on the General Lines Arranged by the Citizens Committee.

The Governor-General has approved in general of the programme submitted for the reception of Their Excellencies, the Duke and Duchess of York and Cornwall in Victoria, but on account of the cutting short of the visit to this city he has suggested that the programme be remodelled and submits a substitute. In this connection the Colonist has received the following letter from Mr. R. B. Powell, private secretary to the Lieutenant-Governor:

The 9th of August, 1901. At Government House, Victoria, B. C.: Sir,—I am authorised to state, for general information, that according to present arrangements, Their Royal Highnesses will arrive at Victoria, on the 2nd of October, next, at 11 a. m., and will leave at 1 p. m. on the 3rd instant.

His Excellency, the Governor-General regrets the necessity of cutting short the Royal visit to Victoria, but the enormous number of guests, and the fact that their local Highnesses have to cross in a comparatively short space of time (three weeks) renders this however imperative, and it has been found necessary to act similarly with other large cities and towns, such as Winnipeg, Vancouver, Hamilton, Kingston, St. John, etc.

This being so, His Excellency would suggest that the programme for Victoria be remodelled on something like the following lines:

October 2, 11 a. m.—Arrive Victoria; procession to City Hall; presentation of addresses and medals to members of Canadian contingents, South Africa; Royal procession to Oak Bay Hotel.

4 p. m.—Opening of Agricultural Exhibition.

Evening—Official dinner at His Honor's, the Lieutenant-Governor.

10 p. m.—Reception at Parliament Buildings; illumination of city and fireworks.

October 3, 10 a. m.—Lay corner stones of James Bay causeway and Point Ellice Bridge.

1 p. m.—Leave Victoria.

His Honor considers the programme, as suggested by Lord Minto, a suitable one, and hopes that it will meet with the approval of the people.

As regards the items omitted in the programme proposed by the Citizens' committee, the military authorities have only made provision for three reviews, viz. at Quebec, Toronto and Halifax, whilst want of time would render a review of children impossible. His Excellency suggests that possibly the latter might be concentrated at some point in the route, which Their Royal Highnesses would drive along, so that they might see them as they passed.

With reference to the dress to be worn at the reception, the Governor-General considers that it should be strictly full dress, that is to say uniform or court dress for those who have it, and evening dress for others.

As regards the proposal to decorate public buildings, there is no necessity, as suggested by Lord Minto, for purple and crimson being the royal colors, are obviously a suitable combination.

Yours obedient servant.

R. B. POWELL, Private Secretary.

The following instructions with reference to the visit of Their Royal Highnesses have been received: Mourning.—During the forthcoming visit of Their Royal Highnesses The Duke and Duchess of Cornwall and York to Canada, half mourning should be worn by ladies according to Queen Alexandra's order, i. e. mauve, lilac, grey or black and white.

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Addresses.—Addresses for presentation to His Royal Highness The Duke of Cornwall and York should be commenced as follows: "To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Wales."

Saxe-Coburg and Gotha, and Duke of Saxony; Earl of Carrich and Inverness, Baron of Renfrew and Killarney, Lord of the Isles and Great Steward of Scotland, K. G., P. C., K. T., K. S., G. C. M. G., G. C. V. O., LL.D., D. C. L., &c., &c.

"May it please Your Royal Highness."

If desired reference may be made to Her Royal Highness The Duchess of Cornwall and York in the body of the address.

J. POPE, Under Secretary of State, Department of the Secretary of State, Ottawa, 10th July, 1901.

Its worth a little time and care to have the most important part of your breakfast right, isn't it?

A delicious cup of coffee for your breakfast, and the day is well begun.

The principal requisite of a cup of good coffee is freshly ground coffee of a proper blend.

The principal requisites of a good blend of coffee are purity, strength, flavor and aroma, and

300 Acres North Saanich

This magnificent property, charmingly situated, consists of 300 acres of first class farming land, 150 acres of which are under cultivation, the balance being bush land, 100 acres of which being alder land of the best quality, easily cleared.

This property is for sale at a very low figure, and is probably the greatest bargain ever offered in the way of first-class farming property in Saanich.

PEMBERTON & SON, - 45 Fort Street

THE WEATHER.

Meteorological Office, Victoria, Aug. 9-8-8. In. SYNOPSIS. The pressure has increased on the American coast and is moderately high over the province. Fair weather has been general throughout the North Pacific, with fresh winds on the coast and straits. Temperatures have continued high between the American ranges, 101 being reached at Red Bluff, Cal. East of the Rockies a low barometer area is central in Assiniboia, causing higher temperatures, thunderstorms and heavy showers both there and in the adjoining Territories, while in Manitoba cooler weather prevails.

TEMPERATURE. Min. Max. Victoria..... 52 70 New Westminster..... 53 70 Kamloops..... 62 78 Barkerville..... 41 62 Calgary..... 49 72 Winnipeg..... 52 61 Portland..... 54 70 San Francisco..... 59 82

MORE THAN A MILLION BARRELS

St. Louis, Saturday, Aug. 3.—Upon learning that the sales of the Anheuser-Busch Brewing Association had passed the one million barrel mark for the twelve months ending July 31, Mr. Adolphus Busch, president of the company, issued the following words of appreciation: "Langensalbach, Germany, Aug. 1, 1901. "Anheuser-Busch Brewing Association, St. Louis, Mo.

"Your cablegram announcing the sale of more than a million barrels of beer for the twelve months just passed fills me with gratitude to my officers and men who so ably assisted in achieving that which has never before been accomplished by one individual plant in the brewing industry. Our establishment is of international repute and looked upon with pride by the people of our country."

"ADOLPHUS BUSCH, President."

VICTORIA TIDES.

For the Month of August, 1901. (Issued by the Tidal Survey Branch of the Department of the Marine and Fisheries, Ottawa.)

The zero of the accompanying scale corresponds to the average lowest yearly tide, and is 18.3 feet above the sill of the Esquimalt Dry Dock.

The time used is Pacific Standard for the 120 meridian west of Greenwich, from 9 a. m. to 21 a. m. from midnight to midnight. The height is in feet and tenths of a foot.

For plagues, blotches, bad complexion, Hood's Sarsaparilla is the medicine to take—it has established this fact.

The Golden District Game Protective Association has been formed. The officers appointed were as follows: President J. G. Ulick; vice-president, C. A. Warren; secretary-treasurer, W. Alexander.

HEADACHES.

Injudicious feeding, rich food stuffs, and a thousand and one causes are enough to send the poisonous matters to the delicate brain cells, through the blood, and produce headaches. Powley's Liquefied Ozone will take the poison out of your blood and then heal your stomach's action. Take the dose every twenty minutes if the headache is severe.

"Since my infancy I have been troubled with bilious headaches; I used to suffer dreadfully, especially during the summer months. I doctored three years with my family physician, but received no benefit. I tried two or three other doctors, and many so-called remedies, but got no relief. I came to the conclusion there was no cure. I drank some of your medicine, and in a few days I felt better, and in a few more I was cured. I feel like a new man, and can recommend it to all who suffer from bilious headaches." (Signed) J. R. BREWSTER, Centerville, Ont.

Powley's Liquefied Ozone is one dollar a bottle; your druggist has it. Send to us for any additional information you require. Our literature is free.

DOG RESPONSIBLE.

Frightens a Horse and Two Boys Are More or Less Injured.

An accident in which two boys were more or less seriously injured and a horse ruined, occurred in the vicinity of Swan Lake early yesterday morning. The two sons of Mr. J. Shopland, of Victoria, district, were on their way to the Victoria creamery with a supply of cream when a large dog rushed out from the premises of Mr. French, where a number of wild animals and dogs are kept, and attacked the horse in a most vicious manner. The horse was so frightened that he became unmanageable and running away, the boys were thrown from the cart. The younger boy was so cut about the head and arms that for a time his condition was considered critical. The older boy was also rather seriously injured. The horse got loose from the wagon, but in doing so injured himself to such an extent that his future usefulness is doubtful.

The place kept by French has been complained of on a number of occasions. It is a regular meeting place for a number of the city and visitors generally will be invited to take part in the parade and to wear masks. It is expected that practically every citizen, including boys and girls above 10 or 12 years of age, will either be in line for the parade, or be on the streets to take part in the fun, and all to be in harmony with the spirit of the occasion, will wear small face masks and dominoes.

The parade will be brilliantly illuminated and its ranks will be swelled by many of the local secret societies in uniform and masks.

ARTISTIC DRESS FOR MEN.

Berlin Artists, Writers, and Musicians Want a Reform.

Artists, writers and musicians at Berlin have formed a men's dress reform club, of which Hermann Wagner, the painter, is president, says the New York Sun. The object of the club is to devise and popularize a dress for men which, while being equally comfortable will be more artistic than that now worn in every day life.

The committee appointed for this purpose has submitted designs of a new dress, which have been approved. The short coat or jacket is a modified form of the uniform worn by a Prussian regiment of Germany. It is tight to the waist and indicates the graceful curve of the spinal column by braids on the back.

The trousers are also tight fitting, loose ending somewhat below the knee, and have buttons on the sides of the legs. The waist coat is likewise a reminder of the military style and shows off to great advantage the manly chest of the wearer.

These garments are to be manufactured of grey colored cloth, and the idea being to give the portrait painters a relief from the dull monotony of the present colors. The club has written to artists all over Europe soliciting further designs.

HOTTEST JULY SINCE 1868.

Six Degrees Above The Average Ever Recorded at Toronto Observatory.

Now that it is all over residents of Ontario will be proud to know that they have endured the hottest July since 1868. This is what the weather man announces, and he conveys the further information that the average temperature for the month, 73, is exactly the same as in 1867, and 6 degrees above the average temperature for July since the observatory was established. The people who lived in Ontario in 1868 had to endure two degrees more, the average temperature that year being 75.

The rainfall in Ontario for the month was also considerably above the average, especially in the northern parts, where the rainfall for the month reached four inches. This was a great help to the farmers in getting in their crops.

In the Maritime Provinces the temperature for the month was 72 degrees above the average, while the rainfall was considerably below the average, as was also the case in Quebec. The rainfall was also a trifle above the average in Manitoba and the Territories. The temperature in the Territories was an average, while it was two degrees higher than the average in Manitoba. The reports from all parts of Canada indicate that even did well for the month—Mail and Empire.

THE LATEST ORIENTAL CULT.

Bahism is the latest Oriental cult to obtain a footing in America. It is described as the religious philosophy of Shilism, the grandchild of Shilism, and the direct offspring of Shilism. According to Shilism there were twelve imams or saints. Eleven lived and died on earth, and the twelfth, known as the Imam Mahdi, went into retirement, and will reappear at his convenience to inaugurate the millennium. The persons with whom he communicated in the outer world were known by the name of bab or gate. The apostolic succession, however, ended, and there were no more babs, until 1844, nearly a thousand years after the retirement of the Imam Mahdi, there arose Mirza Ali Mahomet, who proclaimed himself to be the Bab, Shilism is the orthodox religion of Persia, and the new Bab was at once denounced by the government as a heretic. He was martyred, and many of his successors have shared a similar fate, but Bahism flourishes, and is said to count a million followers. Many Americans, including some leaders of society, are among them, and they are making strong efforts to have pressure brought to bear on the Persian government to secure a cessation of the persecution of the Bahists.—London Leader.

Preliminary Notice

THE

AUCTION

At the residence of the Hon. J. H. Turner, will be held on

Wednesday Aug. 28, 1901

Catalogues will be issued, and the goods on view, on Monday 26th, Tuesday 27th, and the day of sale. ROMANCE OF DANISH BUTTER.

The foreign office report on the trade and agriculture of Denmark unfolds quite a romance of Danish butter. An article which in our towns has practically ousted the native butter. In 1900 no less than a million and a half hundredweights of butter were exported from Denmark, of which every ounce but 50,000 hundredweight came to England, which is therefore practically the Danes' only butter customer. Denmark, however, has now reached its maximum in butter production, and already the Danes, to enable him to ship more and more butter, is taking to eating margarine. In 1900 Denmark actually increased its consumption of margarine to 366,108 hundredweights, 17 huge factories being at work producing the delectable, if mysterious, dairy for the manufacture of which big quantities of lard are imported. The price of Danish butter is likely to have a rise in the British market shortly, as the supply cannot be increased, and it is certain the British farmer will not take the margarine in order to market more of his butter.—London Leader.

PILES CURED IN THREE

TO SIX NIGHTS—One application gives relief. Dr. Agnew's Ointment is a boon for itching Piles, or Blood, Bleeding Piles. It relieves quickly and permanently. In skin eruptions it stands without a rival. Thousands of testimonials if you want evidence, 25 cents. Sold by Deane & Hiseock and Hall & Co.
